Congratulations, Dr. Geurs, on your recent selection as 2019 American Academy of Periodontology Scholar. This recognition is well-deserved and is a testament to your dedication and excellence in the field of periodontology.

For the past 25 years, Concord Dental Seminars has been committed to providing high-quality continuing education programs for dental professionals. We work with experts in the field to bring you the latest advancements and techniques in the field of dentistry. In 2018, Concord Dental Seminars collaborated with Dr. Geurs and Dr. Mark_Lee to bring you a course on advanced bone grafting in Manchester, UK. This course was highly rated by attendees.

Dr. Geurs' areas of expertise include periodontal surgery and implantology. His research interests include regeneration, bone grafting and dental implants. Dr. Geurs has published extensively on these topics, and in 2016, he was named the Weatherford/Palcanis Endowed Professor at the University of Alabama in recognition of a full-time periodontist who has distinguished himself in academia and has demonstrated a commitment to and excellence in the areas of teaching, research, and service.

We are excited to announce that Dr. Geurs will be joining us once again in 2019 for a course at the University of Alabama. This course will be titled "Soft Tissue Consideration for Implant Site Development" and will be held at the Oral and Maxillofacial Surgery Clinic of North America. This course is nationally and internationally recognized, and previous engagements include AADP annual meeting, American Academy of Periodontology, and European Federation of Periodontology Conference.

In the event of an "act of God," leading to the cancellation of this seminar, the following options are available. If Concord Dental Seminars reschedules the tuition of the attendees of the cancelled seminar, but not for the accommodations, travel or personal services required in connection with the program. Concord Dental Seminars reserves the right to cancel this seminar at any time with no liability to registrants other than full refund of registration fee.

The speaker receives no support from any commercial organization and does not promote any products or sell any tapes, books, instruments, forms or other materials for the course.

Continue to stay tuned for more updates on Dr. Geurs' courses and upcoming opportunities to learn from him and other experts in the field of dentistry.
Optimizing Your Patients’ Systemic Health Through Dental Care!

Course Description
The effects of periodontal infection and inflammation are not limited to the destruction of the periodontium. There is compelling evidence outlining the importance of systemic health. Our patients are increasingly seeking opportunities to improve their health. This course will review current concepts of etiology, pathology and therapy of periodontal diseases and the interface with systemic health with a focus on how we should educate our patients in 2019. The long-term relationship with our patients and our commitment to prevention in a dental practice presents a unique opportunity to incorporate wellness concepts in our practices. Successful smoking cessation strategies will be discussed. The opioid abuse epidemic is gripping the country. The role of dentistry in this crisis will be discussed. This course will outline the latest innovations in periodontal treatment and prevention of periodontal disease. After completion of this course the participant will be able to implement those therapies in their daily practice to optimize the oral and periodontal health and improve the overall wellness of our patients.

Learning Objectives
Upon successful completion of this program, participants will be able to:

1. Understand the new 2018 classification of periodontal disease
2. Learn the current concepts in the treatment of periodontal disease
3. Learn how to treat periodontal inflammation
4. Understand the role of regeneration in the prognosis of periodontally compromised dentitions
5. Understand the systemic effects of periodontal infection and inflammation
6. Use the current understanding and evidence to discuss the oral health diseases of hard on systemic health
7. Understand behavior modification concepts
8. Implement preventive and maintenance strategies to optimize oral and periodontal health
9. Understand the Opioid abuse epidemic

WHILE NOT REQUIRED, IT IS HIGHLY RECOMMENDED TO ATTEND BOTH SEMINAR DAYS FOR THE MOST BENEFIT.

SATURDAY, JULY 27, 2019 • 8:30 am - 5:00 pm • 8 CEUS

Long Term Success of Dental Implants and Implant Maintenance Protocols

Course Description
Dental implants have become the preferred option for the replacement of missing teeth. Increased demands for better esthetics and function have made our design an integral part of implant dentistry. The impact of surgery can be a hurdle for the patients commitment to treatment. Hard and soft tissue site development for implant placement. Surgical therapies are often necessary. This course will focus on treatment planning, surgical techniques, and material selection, that will minimize the impact on the patient without compromising the final outcome. Our patients maintain their implants has become an important aspect of every dental practice and an important parameter for long-term implant success. Peri-implantitis are a very common finding and the management has proven to be challenging. This course will present the latest innovations in prevention and therapy in implant maintenance, including the diagnosis of peri-implant disease, prevention strategies, maintenance care and treatment of peri-implant disease.

Learning Objectives
Upon successful completion of this program, participants will be able to:

1. Understand the treatment planning aspects and treatment decisions to minimize the impact on the patient
2. Learn the risk factors for peri-implant disease
3. Understand the impact and treatment applications in bone regeneration
4. Understand the soft tissue around implants and the role of soft tissue grafting in peri-implant health
5. Learn the 2018 classification and how to diagnose peri-implant diseases
6. Learn how to prevent peri-implant diseases and the latest concepts in peri-implant disease
7. Learn how to manage and treat peri-implant disease
8. Understand the surgical treatment of peri-implants

Confirmations will be mailed 10 days prior to the seminar. Please complete the registration form to ensure prompt delivery.

Registration Form

I. Basic Implant Treatment Planning for Long-Term Success
   A. Case selection
   B. Local risk factors
   C. Diagnostics
   D. Treatment planning

II. Implant Maintenance
   A. Prevention of peri-implant disease
   B. Implant maintenance
   C. Treatment of peri-implant disease
   D. Non-surgical treatment
   E. Surgical treatment

III. Open Discussion
   A. Cardiovascular and stroke
   B. Diabetes and inflammatory periodontal disease
   C. Pregnancy and periodontal disease
   D. Diabetes and inflammatory periodontal disease
   E. Smoking and periodontal disease
   F. The opioid abuse epidemic and the role of dentistry

Concurrent Sessions will be held at the following times:

8:30 - 10:00 am
10:15 - 12:00 pm
12:15 - 2:00 pm
2:15 - 4:00 pm
4:15 - 6:00 pm

Course Outline

I. Periodontal Infection and Inflammation: What do they mean for your patients?
   A. Pathogenesis of periodontal disease
   B. Microbial biofilms
   C. The new classification of periodontal diseases

II. Systemic Health Through Dental Care
   A. Cardiovascular and stroke
   B. Diabetes and inflammatory periodontal disease
   C. Pregnancy and periodontal disease
   D. Diabetes and inflammatory periodontal disease
   E. Smoking and periodontal disease
   F. The opioid abuse epidemic and the role of dentistry

III. Open Discussion
   A. Cardiovascular and stroke
   B. Diabetes and inflammatory periodontal disease
   C. Pregnancy and periodontal disease
   D. Diabetes and inflammatory periodontal disease
   E. Smoking and periodontal disease
   F. The opioid abuse epidemic and the role of dentistry

Concurrent Sessions will be held at the following times:

8:30 - 10:00 am
10:15 - 12:00 pm
12:15 - 2:00 pm
2:15 - 4:00 pm
4:15 - 6:00 pm

Confirmations will be mailed 10 days prior to the seminar. Please complete the registration form to ensure prompt delivery.

REGISTRATION FORM

I. U.S. Residents
   A. Check
   B. Check Date(s) you will be attending:
   C. Name, Address, City, State, Zip Code
   D. Phone
   E. Email

II. Non U.S. Residents
   A. Check
   B. Check Date(s) you will be attending:
   C. Name, Address, City, State, Zip Code
   D. Phone
   E. Email

III. Payment Information
   A. Credit Card Information
   B. Check Date(s) you will be attending:
   C. Name, Address, City, State, Zip Code
   D. Phone
   E. Email

By registering for this program, you agree to the following:

1. Your name will be added to our list of authorized individuals attending this program.
2. You will receive a confirmation of your registration by email.
3. You will receive updates about the program and any changes to the program schedule.
4. You will receive a certificate of attendance at the end of the program.
